# INFOFISH

- Межправительственная организация, созданная в 1981 г. для предоставления маркетинговой информации и технических консультационных услуг рыбным промыслам в Азиатско-Тихоокеанском регионе и за его пределами.
- Часть информационной сети Fish INFO по рыбным маркетинговым и информационным услугам (GLOBEFISH, EUROFISH, INFOSAMAK, INFOPECCA, INFOPECHE, INFOYU)
- Развитие сектора рыбного хозяйства и аквакультуры
- Сотрудничество с ФАО, GLOBEFISH и региональными и международными консультантами
- Маркетинговая и отраслевая информация в международном журнале INFOFISH, INFOFISH Новости торговли, интернет-сайте INFOFISH
- Учебные программы, практикумы и семинары, организация конференций, деловых встреч, проектов в области торговли и маркетинга, переработки, аквакультуры и рыбного хозяйства
- Адаптировавшись к новым обстоятельствам в условиях из-за пандемии Ковид-19, внедрила новые коммуникационные технологии
- Вебинары, подкасты и онлайн-тренинги в настоящее время используются для бесперебойного распространения информации и мероприятий для стран-членов

A **Comprehensive** Coverage on International Fishery Trade... Offering Latest Business News, Market Analysis and Prices in Major and Potential Markets... Market Opportunities for Products and Services.

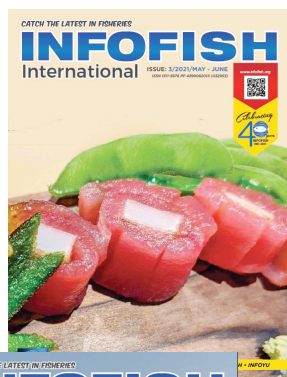

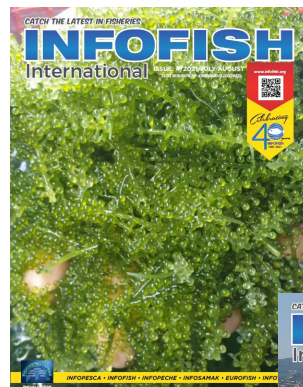

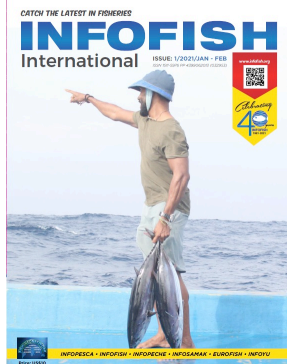

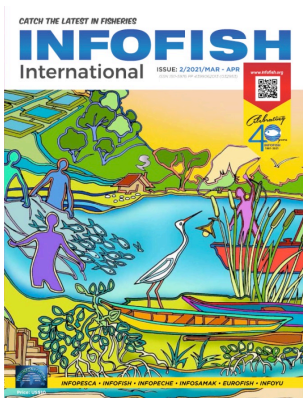

Supplementary bulletins...

✓ **European Price Report (EPR)** is a **monthly** bulletin with comprehensive coverage on European markets. Produced by FAO-Globefish, EPR reports on market trends and prices for coldwater as well as tropical species namely cod, hake, Alaska pollack, herring, farmed salmon/trout, European sea bass/sea bream, tuna, tropical shrimp and chephalopods and more.

✓ **INFOFISH International**, the longstanding **bimonthly** magazine distributed globally since 1981, is also included as a complimentary copy (by surface mail) to subscribers of the fortnightly INFOFISH Trade News.

✓ **Globefish Highlights** is the commodity report which outlines quarterly market trends and outlook on tuna groundfish, shrimp, lobster, chephalopods, small pelagics, fish meal and fish oil.

# Издание INFOFISH International

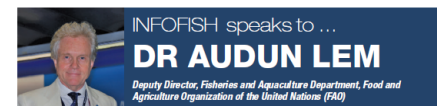

- Содержание и качество INFOFISH International отражают главную цель организации – сохранение экспертных знаний в области рыбного хозяйства и аквакультуры, в особенности применительно к Азиатско-Тихоокеанскому региону.
- Подробные интервью с ведущими представителями и экспертами из ряда областей мирового рыбного хозяйства и аквакультуры.

UN Secretary-General's Special Envoy for the Oceans and Co-Chair, Friends of Ocean Action

20 Industry Profile/

INFOFISH speaks to ...  
**DR AUDUN LEM**  
Deputy Director, Fisheries and Aquaculture Department, Food and Agriculture Organization of the United Nations (FAO)

Dr Lem, thank you for agreeing to share your views with our readers. Perhaps a good place to begin is to talk about the coronavirus pandemic, and the most pressing topic worldwide even after almost a year since it emerged as a global threat.

Some of the concrete recommendations are:  
• Collect data, as well as support research, on the impact of the COVID-19 pandemic on fisheries and aquaculture systems.

18 Industry Profile

INFOFISH speaks to ...  
**FRANCISCO BLAHA**  
From commercial fisherman in Argentina to internationally recognised fisheries institutional affairs, capacity building supporter of fisheries fights and an all-round passionate proponent of equality and equity in fishing.

On 25 November, you were the Moderator for an INFOFISH-organised webinar 'Asia Fisheries in the Pacific: A Guide to COVID-19' – thank you for doing such a great job in creating a warm and lively discussion amongst the speakers, which included fisheries in the industry. Would you like to highlight some of the points raised in that webinar, for the (and perhaps plans to) attend workshops to fisheries sector and management discussion.

Yes I guess the message that impacted me the most was just the human side of this pandemic, everyone referred to their struggles around work, health, travel, and so on. Everyone

Industry Profile/

INFOFISH speaks to ...  
**SIMON FUNGE-SMITH**  
Senior Fishery Officer at the FAO Regional Office for Asia and the Pacific (Bangkok, Thailand), and Secretary of the Asia-Pacific Fishery Commission (APFC)

Perhaps a good place to start would be to understand what the role of the Asia-Pacific Fishery Commission (APFC) is in this region, which is the world's largest producer of fish. Certainly inland fisheries has been given far less attention than some of the better known issues in marine fisheries. Inland fisheries are far less visible, being embedded in rural

INFOFISH speaks to ...  
**DR MERYL WILLIAMS**  
Deputy-General of the WorldFish Centre from 1996 – 2004, former Chair of the Commission of the International Council for the Exploration of the Sea (ICES), Crawford Mollie Award, former and current Chair of the Director of Aquaculture and Fisheries Section of the Asian Fisheries Society.

26 Industry Profile/

INFOFISH speaks to ...  
**DR ALBERT GJ TACÓN**

In 1984, Dr Albert Tacón joined FAO as an aquaculturist and nutrition expert. In 1999 he moved to Hawaii to take up the position as Director of the Aquatic Feeds and Nutrition Program at the Oceanic Institute, and then as Technical Director of Aquatic Farms Ltd as an independent consultant in aquaculture and aquafeeds. He is the Scientific Advisor on Aquatic Resources to the International Foundation for Science, Sweden; Previously Editor in Chief of Reviews in Aquaculture; Editorial Board member of Aquaculture Nutrition and Aquaculture Research; and Board Member of Aquaculture without Frontiers.

Industry Profile/

INFOFISH speaks to ...  
**DR SANGEETA MANGUBHAI**  
Full Country Director of the Wildlife Conservation Society (WCS)

Her areas of specialisation include designing marine protected areas, marine spatial planning, ecosystem-based management, coastal fisheries, wildlife recovery in human-occupied parks, and climate change. She was awarded a 2018 Pew Fellow in Marine Conservation for work on implementing gender and human rights-based approaches into coastal fisheries management in Maldives.

## BizPROFILE

Branded content is not just advertising; rather, it is about telling the story of an organisation and its core values, products and services. It is about building support for the organisation in a rapidly changing marketplace, engaging with the targeted audience, and articulating its core values.

But even brilliant content needs to be marketed effectively, and this is where INFOFISH can assist.

Together with our other marketing services, we are offering an additional platform for companies and businesses related to the fisheries industry to spread the word on their latest developments, innovations, and goals in a rapidly changing marketplace.

For only **US\$ 1000**, your company will be featured:

- In a two-page advertorial in the BizProfile section of one issue of the INFOFISH International, consisting of one full page of content and one full page advertisement
- On the INFOFISH website for a period of three months

For further information, please contact: [info@infofish.org](mailto:info@infofish.org)

## MANUAL ON PROCESSING

This manual is meant to give the seafood industry in the Asia-Pacific region, particularly in the developing countries of South and South East Asia, some basic guidelines on production, packaging and presentation of fifteen selected value added fishery products of potential economic importance to them. The publication specially caters to the needs of the upcoming entrepreneurs in these countries who lack direct access to technical know-how and expertise on the processing steps related to the products.

# КОНСУЛЬТАЦИИ И ПРОЕКТЫ

## DRIVING SUSTAINABILITY IN AQUACULTURE

Benchmark develops products and solutions in genetics, health and nutrition that improve performance, animal health and welfare, and reduce environmental impact across the aquaculture and production cycle.

### GENETICS

By combining our long-established breeding programmes and the latest genomic tools, we continuously grow better fish and shrimp to help aquaculture producers increase quality, yield, health and welfare.

### ADVANCED NUTRITION

We are a world leading provider of specialist nutrition, preventative health products and environmental solutions for the early stages of shrimp and fish production. We have secure access to high-quality live food (artificial) which, enhanced by our technology, improves nutrition and resilience.

### HEALTH

We are continually looking for more efficient and innovative solutions to help our customers combat biological challenges such as disease outbreaks and parasites. Our new sea lice treatment (BMK17) is currently in development and will be deployed with our purification system CleanTreat®.
