- NEURAL NETWORKS, ROBOTICS, AND AI: NEW OPPORTUNITIES FOR FISHERY INDUSTRY
- HUMAN AND SCIENTIFIC RESOURCES OF THE INDUSTRY

## SIGNING CEREMONIES

A large number of agreements and memorandums of cooperation between market participants are traditionally signed on the sidelines of the event.

For the past several years, the organizers have offered the opportunity to hold the ceremony in a formal setting, following all protocol rules, with a professional host and media representatives in attendance.

In 2025 this service was very popular: approximately **30 public bilateral and trilateral signings** took place during the event. They covered international cooperation, the promotion and popularization of fish products, industrial support for the industry, scientific cooperation, financial and economic development, etc.

## AQUA FARM GLOBAL SPECIAL EXPOSITION

In 2025 **SEAFOOD EXPO RUSSIA** launched a new special aqua- and mariculture exposition **AQUA FARM GLOBAL**. The project is based on fish farming section, which has annually demonstrated the highest growth rates, attracting the biggest number of visitors. For the three days of the exhibition, **AQUA FARM GLOBAL** was attended by **9 236 people**, accounting for **46%** of the total attendance (**20 080** specialists).

Special exposition presented a new paradigm for sector development based on a combination of best international practices and the rational use of the unique natural conditions of various Russian regions.

The **AQUA FARM GLOBAL** special exposition brings together representatives of all aquaculture sectors across all flow-through and recirculating aquaculture systems: fish farmers, manufacturers of RAS and other equipment, suppliers of seed, veterinary drugs and additives, and experts from research centers and clusters.

The special exposition program combined practical solutions for fish and seafood farming issues with discussions on the efficient production and promotion of fish and seafood products, automatization and the implementation of artificial intelligence technologies.

## FISH TECH GLOBAL SPECIAL EXPOSITION

Starting from 2024 **SEAFOOD EXPO RUSSIA** has launched **FISH TECH GLOBAL** - special exposition of shipbuilding, ship repair, equipment and inshore infrastructure for the fishery industry.

The **FISH TECH GLOBAL** special exposition brought together manufacturers of the entire range of equipment used in the fishery industry from vessel laying and fishing to packaging and delivery of highly processed fish products to consumers.

The results proved the huge interest to the project from the target audience. Thus, for the three days **6 827** people have visited the exposition, which is almost **34%** from **20 080** participants total.

The special exposition was followed up by the rich business program, which was focused on finding the most effective solutions for the topical issues of fishery fleet and production of fishery products.

## FISH TECH GLOBAL TECH MARAPHON AND FISH PACK PACKAGING COMPETITION

EAFOOD EXPO RUSSIA 2025 featured the first **Tech Marathon** - a series of demonstration tours of the stands of ship and food processing equipment manufacturers. An organized group of professional visitors, accompanied by the host and Shipcat, the mascot of the special exposition, visited over 15 exhibitors over two days, where exhibitors provided detailed presentations, demonstrated their products, and answered questions from the audience.

Another new project, organized for the first time within **SEAFOOD EXPO RUSSIA**, was the **FISH PACK** competition. A jury from the Fish Union, Expo Solutions Group, and popular industry Telegram channels evaluated packages of fish product samples, selected by popular vote, and presented awards to the winners during the event. Nominations covered all product types: from frozen to ready-to-eat products, as well as a "Jury's Choice" category.

## INDUSTRY FOOTBALL MATCH

Sports competitions have become a well-established tradition at the forum and exhibition. In 2025, the program expanded: the first day ended with the final of the All-Russian Sambo Tournament, the «Five Seas Cup of the Federal Agency for Fisheries», and on October 23, for the second time, participants and organizers met on the football field.

The «**Sea Guards**» team was led by Ilya Shestakov, Head of the Federal Agency for Fisheries, while the captain of the «**Fisherman's Guard**» was Alexander Panin, Chairman of the Fish Union. Both teams were supported by professional football players who had previously played for the Russian national team: Gabulov, Kerzhakov, Karyaka, Ignatyev, Prudnikov, and Igonin.

All participants and visitors of the forum and exhibition were able to watch the game and cheer on the players. A comfortable shuttle bus from the Expoforum Convention and Exhibition Centre transported them to the Olimpiets Stadium in Pavlovsk.
